Make every bite count

Take a look at your current eating routine. Pick one or two ways that you can switch to choices today that are rich in nutrition.

A healthy eating routine can help boost your health now and in the years to come. Think about how your food choices come together over the course of your day or week to help you create a healthy eating routine.

It's important to eat a variety of fruits, vegetables, grains, protein foods, and dairy or fortified soy alternatives. Choose options for meals, beverages, and snacks that have limited added sugars, saturated fat, and sodium.

Choose from these simple tips to help you...

Fruits

Focus on whole fruits

- Start your day with **fruit at breakfast**. Top cereal with your favorite seasonal fruit, add bananas or chopped apples to pancakes, or mix a spoonful or two of raisins into hot oatmeal.
- Keep **ready-to-eat fruits** in the refrigerator for a quick snack.
- For dinner, chop up a combination of seasonal, frozen, or canned fruits to make a **quick fruit salsa** to top fish or chicken. Add fruit such as orange sections, apple wedges, or grapes to a **salad**.

Vegetables

Vary your veggies

- Add shredded carrots to the lettuce and tomato **in your sandwich**, make **soup** from the veggies in your vegetable drawer, and **snack on raw vegetables**.
- Try a **stir-fry** with fresh or frozen vegetables for a quick meal or easy side dish.
- Pick out a vegetable that the family has not tried and **get a new recipe** from a cookbook, website, supermarket, or friend.

Grains

Make half your grains whole grains

- For breakfast, enjoy a whole-grain-based **hot or cold cereal**. Consider trying whole-grain puffs or flakes that are new to you—you might discover a new favorite!
- Instead of sandwich bread, try a **whole-grain pita, tortillas, naan or other whole-grain flatbread, sliced breads, or rolls**.
- Create your own trail mix with whole-grain cereal or enjoy whole-grain crackers with turkey, hummus, or avocado for a **healthy whole-grain snack**.
